Professional Summary

Senior Software Engineer with over 9 years of professional experience building engaging, scalable, and accessible digital experiences using Agile Methodologies. Expert in Micro-Frontends (MFE), Backend-for-Frontend (BFF), and cloud-native systems with a focus on high-performance API architecture and SDLC optimization.

Technical Skills

Languages	JavaScript (ES6+), TypeScript, Python, Java, Golang, HTML, CSS, SQL
Frameworks/DB	Node.js, Express, React, Redux, NestJs, Next.js, GraphQL, MongoDB, PostgreSQL
Cloud/DevOps	GCP, Firebase, Git, Docker, CI/CD, GitLab, Helm, Prometheus, Grafana
AI/Tools	LangChain, Vector DBs, OpenAI SDK, Google AI ADK, GitHub Copilot, RAG, MCP Servers

Experience

Senior Software Engineer Sep. 2024 – Present
GfK - An NIQ Company *Pune, India*

- Architected a secure enterprise Files Repository system using ADR governance for strict technical compliance.
- Developed and integrated high-performance React Micro-Frontend (MFE) and Backend-for-Frontend (BFF).
- Automated cron jobs for GCP storage and database cleanup of soft-deleted files.
- Enabled large-scale CSV exports and presentation-style reporting within the GfK Newron platform.
- Contributed to CI/CD automation using GitLab YAML and Helm charts for scalable GCP deployments.
- Integrated Prometheus with Express middleware to expose metrics and visualized data via Grafana.
- Collaborated on an internal AI Documentation Agent using the GitHub Copilot SDK and MCP to automatically update repository documentation upon PR merges.

Senior Software Engineer Nov. 2021 – Sep. 2024
Globant *Pune, India*

- Developed and styled Next.js and React components ensuring A11y (accessibility) compliance.
- Authored test suites using Jest and React Testing Library for robust frontend coverage.
- Enhanced backend architecture in NestJs by implementing custom decorators, filters, and validation pipes.
- Built a reusable design system with Storybook to support scalable development across multiple MFEs.
- Executed code restructuring and function improvements across multiple production modules.

Senior Application Engineer Oct. 2019 – Oct. 2021
Raw Engineering *Mumbai, India*

- Spearheaded architecture for the Digital Fan Experience Platform (DFEP), including CMS and CI pipelines.
- Overhauled frontend architecture using React v17 and migrated legacy API endpoints to NestJs.
- Implemented edge-side API caching with Fastly, reducing server costs by 30% and significantly decreasing latency.
- Built a Golang POC optimizing peak-duration traffic to reduce server infrastructure costs.

Software Developer Aug. 2017 – Sep. 2019
XDev Studios *Mumbai, India*

- Developed web and mobile apps using Next.js, Node.js, React, MongoDB, PostgreSQL, and Firebase.
- Engineered high-performance backend API services and collaborated on feature gap analysis.
- Refactored complex MongoDB aggregation pipelines, boosting enterprise data query performance by 20%.

Education

Savitribai Phule Pune University (SPPU) Pune, India
Bachelor of Computer Engineering *May 2016*

Personal Projects

Ecommerce: Platform leveraging LangChain multi-agent workflows for autonomous e-commerce operations.
NPM Modules: Published and maintained developer utilities including logstack, otp-agent, and react-toast-notifier.
Portfolio: High-performance static site built with Gatsby and GraphQL, optimized for SEO and Netlify deployment.
